

AGWA DE BOLIVIA

One of the more interesting herbal liqueurs we've come across lately is Agwa De Bolivia, a coca leaf-based botanical from Holland (of course). All the good stuff has been taken out per FDA requirements, but you'll still be rocked by its sweet taste and slightly spicy finish. Excellent in martinis, mojitos, on the rocks or in shots downed with a wedge of lime.

FRANK ZAPPA BEERS

From the good folks at Lagunitas Brewing we have an ongoing seasonal tribute to the late, great Frank Zappa. Marketed with the cooperation and consent of the Zappa Family Trust, Absolutely Free, Kill Ugly Radio and We're Only In It for the Money beers all pair well with a helping of *Have I Offended Someone?* or *Frank Zappa Meets the Mothers of Prevention*—or maybe even *The Grand Wazoo*, if you get lucky. The next brew, *Cruising With Rueben* and the *Jets*, is due out this summer. Available at fine craft brew emporia.
